PROFILE

Enthusiastic and approachable Full Stack Developer with a recent certification from iO Academy. Former audio engineer and bookseller with strong communication skills and a lifelong curiosity for tech. Passionate about problem-solving, clean code, and continuous learning. Experienced in working in Agile environments, leading teams, and delivering full-stack applications with modern web technologies.

TECHNICAL SKILLS

Languages and tools: JavaScript, TypeScript, Node.js, PHP, SQL, HTML, CSS, Bash

Frameworks and Libraries: React, Express.js, Slim, Bootstrap, Tailwind CSS

Database: PostgreSQL, MariaDB

Version Control: Git, GitHub

Testing: Jest, PHPUnit

Other: RESTful APIs, Agile/Scrum, Docker, MVC Architecture, Object-Oriented Programming

PROJECT EXPERIENCE

Subscriptions Assistant - Full Stack Developer

React, PHP (Slim), SQL, REST API, Tailwind, React Router

A custom-built internal tool to assist in monthly book subscription selections by querying business sales data, Google Books and Open Library APIs. Includes CSV import, tagging and CRUD functionality.

[\[GitHub Frontend\]](#) | [\[GitHub Backend\]](#) | [\[Live Link\]](#)

Furniture Store API - Backend Developer / Scrum Master

PHP (OOP), SQL, REST API

Developed an internal API to support a furniture store frontend, with service classes for unit and currency conversion. Led the team as Scrum Master, managed database design, and maintained the project burn-down chart.
